EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

2. The application has been amended as follows:

In the Abstract:

Lines 6 and 7, delete ", e.g., spacers ... slightly conductive".

Last three lines, delete "Such patternable material ... provided.".

The abstract has been amended with the above deletions so it is in the range of 50-150 words and is the same abstract as that in U.S. Pat. No. 6,368,480.

In the Specification:

Page 1, line 1 (immediately after the title), insert --This application is a continuation of U.S. Pat. No. 6,368,480 which is a continuation of U.S. Pat. No. 6,153,075, which are incorporated herein by reference.—

3. The following is an examiner's statement of reasons for allowance: Because the prior art reference do not disclose

- in a method for use in the production of a display the recited step of electrophoretically depositing a patternable material mixed with a light emitting material on the conductive surface and the one or more nonconductive regions in combination with other recited steps as claimed in claims 42-45; and
- in a method for use in the production of a display the recited step of forming in combination with other recited steps as claimed in claims 49-52;

because claims 46-48 have been indicated in condition for allowance in the first Office action; and because of the remarks filed June 21, 2004, the previous rejection to claims 56-66 are no longer maintained.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
